

2017 Hero World Challenge
November 29 – December 3, 2017

Volunteer Committee Options

- **Greeters:** Volunteers will be positioned at entrance areas, hospitality venues and information booths throughout the Championship week. At the entrance areas, volunteers will welcome guests to the course and assist with checking guest credentials and tickets. At the hospitality venues, volunteers will ensure all persons entering these facilities have the proper credentials. Volunteers at the fan information booths, will be passing out items and directing guests in the right location.
- **Marshals:** Marshals will be assigned to various playing holes and high traffic areas throughout the golf course as well as putting green and practice areas around the clubhouse. Marshals may also be assigned to walking with the groups of players to assist with player movement between greens and tee boxes. These marshals, known as roving marshals, will also assist with crowd control to ensure that a quiet environment is maintained when players are approaching their ball. Marshals may be called on to enforce noise control at certain private hospitality locations in close proximity to play. Position requires long periods of time on your feet and you must be able to walk the duration of an 18-hole round if you wish to be a roving marshal. There is no on-course shuttling provided, so volunteers must be able to walk to their assigned area.

Main duties include:

- Maintaining gallery and noise control.
- Enforcing roped off areas.
- Promoting safety for spectators.
- Assisting with movement for players, caddies and officials.
- Becoming familiar with all van routes and procedures involved in a course evacuation due to inclement weather.

- **Pro-Am Cart Drivers:** The pro-am cart drivers committee is responsible for driving the amateur's bags from hole to hole. The pros and amateurs will walk the course but the cart driver volunteers will drive the bags to each hole for the guests. Volunteers for this committee are only needed on Wednesday during the pro-am.
- **Scoreboards:** The scoreboard committee is responsible for manning the manual scoreboards around the golf course. Additionally, this committee will oversee the monster board. Individuals working on the scoreboards must have a working knowledge of golf scoring.
- **Standard Bearers:** The standard bearers walk alongside each competitive group and carry the standard. The standard is the sign that lists the players playing in the group and their updated score. You must be able to walk the duration of an 18-hole round. All standard bearers must be available to work all four competition rounds Thursday - Sunday. **Volunteers with previous Standard Bearer experience will be given first priority.**
- **Volunteer Headquarters:** The volunteer headquarters committee is dedicated to assisting the volunteers working on course and running the volunteer tent operations. This may include helping with the distribution of uniforms and lunches. Volunteer services volunteers may also be asked to assist in other areas of the event and may be asked to take on additional responsibilities throughout the week. Returning HWC volunteers will be given first priority.
- **Walking Scorers:** Past experience required. A walking scorer will be assigned to walk with each group of contestants and are required to keep the contestants' scores as well as selected statistics. It is important to have an understanding of the game of golf when serving as a walking scorer. All walking scorers must be available to work all four competition rounds Thursday - Sunday. **Volunteers with previous walking scorer experience will be given first priority.**
